

I'm not robot

Continue

Please note that processing times may be slower than usual, as a limited number of teams are able to enter the office due to social distance measures. You can find our postal address on the forms below. Donating online is the quickest way for us to receive your money. But you can still make a donation by downloading the forms below and sending us your donation if that's not possible. Virtual quiz or evening games. Home exercise challenge or head shave. Every penny you collect will help highlight the day when all cancers are cured. Send us all the money you've raised through our donation form. Send us money you've raised Cancer Research UK's donation pages that help support your friends and your family's fundraiser. If you know someone who is raising money for us, you can search their donation page and make a donation to show your support. Cancer is happening right now, which is why I'm taking part in a 5k life race to raise money and save lives. 1 in 2 people will be diagnosed with cancer in their lifetime. Every book you give makes a difference in the groundbreaking work of Cancer Research UK, so please sponsor me now. Use this easy-to-tear A5 notebook to take these all important notes. 100 pages. This fabulous hot pink with teal trim bag is perfect for keeping in your purse or car for shopping. Bsg folds in its own pocket for easy storage. The approximate size of the bag is 40 x 40cm. A great way to show that you support Cancer Research UK. In the latest episode of our series of cancer and infections, we explore the story behind the carcinogenic human papillomavirus. Read more Conclusion of our story on the epstein-barr virus and cancer, we explore the ongoing research on the virus and how this could lead to treatments in the future. Read more 50 years ago, three scientists published their findings on the first human virus that can cause cancer - read the story of the Epstein-Barr virus. Read more In the next in our Cancer and Infections series, we examine the H. pylori stomach bug and how it is linked to cancer. Read more Can you get cancer? The answer is no, but you can pick up an infection that increases the chances of developing certain types. Read more Thank you for visiting my fundraising page. In January I take dryathlon® and raise funds for Cancer Research UK. I'm going to drop the drink for a month to help highlight the day when all cancers are cured. Please dig and donate now. Right now.
